

Date Fields in NASA TechTracS

Date fields are identified using exclamation marks. When using Query by Formula, Apply Formula, or the Formula Editor in Quick Reports, remember to contain the date in !!, as in the following example:

Y2K Compliance

NASA TechTracS is Y2K compliant. NASA TechTracS uses four digit year values.

For more information on Year 2000 Compliance and 4th Dimension, please visit their white paper on Y2K Compliance:
